## Education

### Biju Patnaik University of Technology

graduate date: Jun. 2022

Bachelor's Degree with Computer Science and Engineer |

CGPA: 8.4

Relevant Courses: Web Software Construction (JavaScript), Maths and Data Science (Python), OOP (JAVA),  
Algorithms and Data Structures I and II (JAVA)

## Experience

### DKM CONSULT PRIVATE LIMITED

Apr. 2023 - Present

#### Software Developer

JavaScript, Vue js, Nuxt js, HTML, CSS, Vuetify, PlayWright, GitHub, Linux

- Key Role in SaaS Project: Actively involved in a dynamic SaaS project, playing a pivotal role in crafting frontend components using cutting-edge technologies such as Vue.js, Nuxt.js, Vuetify, HTML, CSS, and JavaScript.
- Exceptional User Experience: Focused on harnessing these technologies to deliver exceptional user experiences, ensuring seamless integration for intuitive and responsive user interfaces that align with project objectives and enhance overall user satisfaction
- Effective Collaboration: Developed expertise in frontend development and demonstrated the ability to collaborate effectively within cross-functional teams, contributing to the project's success.

### VORDURJA EDUCATION PRIVATE LIMITED

Jul. 2022 - Mar. 2023

#### Software Engineer

HTML, CSS, Git, GitHub, React js, Linux

- Responsive Design and Interactivity: Played a key role in a dynamic web project, focusing on implementing responsive design to ensure optimal performance across various devices and enhancing user engagement through interactive features.
- Collaboration and Technical Proficiency: Collaborated closely with UI/UX designers to transform design concepts into functional web pages, maintained version control with Git for efficient teamwork, and upheld application stability through rigorous testing and issue resolution. Proactively staying updated with emerging technologies, I contributed to continuous project performance improvement.

### Kalinga Software Private Limited

Mar. 2022 - Jul. 2022

#### Software Engineering Intern

JavaScript, HTML, CSS, Bootstrap

- Impactful Internship Projects: During my internship at Kalinga Soft, I actively contributed to informative web projects, using HTML, CSS, and JS to overcome technical challenges and optimize code for quantifiable efficiency.
- Enhanced Teamwork and Adaptability: Engaging in code reviews and pair programming strengthened my teamwork skills and facilitated knowledge sharing. This experience not only improved my technical abilities but also reinforced effective communication and adaptability, valuable skills for future projects

## Projects

### Emgo Software

Oct. 2023 - Ongoing

#### Emgo - Your Software Solution Partner

JavaScript, HTML, TypeScript, React, JSX, Git

- Comprehensive Software Solutions: Emgo offers a wide range of software solutions, catering to diverse business needs..
- Client-Centric Approach: Our website is designed to attract and engage clients, prioritizing their unique requirements..

### Yoga Shastra.

Sep. 2023 - Ongoing

#### Web app for seamless yoga practice and wellness.

JavaScript, React, CSS, HTML, Tailwind, Bootstrap, Git

- Effortless Class Booking: Yoga Shartra simplifies yoga reservations for busy individuals, ensuring seamless scheduling and accessibility..
- Informative Yoga Hub: Explore blogs and connect with skilled instructors for an enriched yoga journey.

## Skills

### Languages:

Java, TypeScript, SQL, HTML, JavaScript,

### Technologies & Tools:

React, Next, Vue, Nuxt, Vuetify, WebFlow, WordPress, Git, Linux
